Active Shooter Events And Response

Active Shooter Events and Response is one of the first attempts to not only discuss historic active shooter events, but also to actually dissect some of them—empowering law enforcement professionals by leveraging the essential knowledge and experience of those who have gone before us. The book also offers insight into the training methodologies and strategies used to prepare our nation’s first responders to address the active shooter threat.

Active Shooter Events and Response | Active Response Training

Active Shooter: Events and Response is written by members of the Advanced Law Enforcement Rapid Response Training (ALERTT) Center at Texas State University: J. Pete Blair, Terry Nichols, David Burns, and John R. Curnutt. I am familiar with this group because a few of the law enforcement officers of our training group know these authors, and in the Acknowledgments, Marcus "Sandy" Wall is thanked for helping introduce the training methodology and curriculum that became the ALERTT program.

Active Shooter: Events and Response

The Civilian Response to Active Shooter Events (CRASE) course, designed and built on the Avoid Deny Defend™ strategy developed by ALERTT™ in 2004, provides strategies, guidance and a proven plan for surviving an active shooter event.
