New construction is the act of building a pipeline facility, or expanding an existing pipeline segment (as in looping a pipeline segment, which may also be done to meet increased load requirements or to enhance reliability of the system) in order to provide new service to a customer(s) or in order to meet increased demand. The tie-in of a new pipeline or segment to an existing pipeline is an O ...

Rental Customer in Solar Construction "Our use of truck rentals is driven by project need. We get tapped out with our internal truck capacity when we're awarded certain projects. We prefer not to invest in 50 trucks for a four-month project stretch." Rental Customer Since 2014 "Our business expands and contracts on a project basis. When we hire more people for a project, we need more ...
