The First Horseman is a discussion of the different disease that traveled the earth, and made an important impact in today's history. One disease discussed was the Eurasian Pandemic: The Black Death which occurred in Europe and the Middle East. This was not just an outbreak of death; it tore families and countries apart.

As infectious disease Under another interpretation, the first Horseman is called Pestilence, and is associated with infectious disease and plague. It appears at least as early as 1906, when it is mentioned in the Jewish Encyclopedia. This particular interpretation is common in popular culture references to the Four Horsemen.
